An educated, reading, in-elligent people cannot be disloy-life free instations; and rebellion against ood gevernment could arise only in that art of our country where the common hool has never been successful. The late ivil war was really carried on by the gnorant masses at the South, and the en-ughtened, educated masses at the North, it is not too much to say that free instituus in North America were saved by think-By the outer of the District Congressional I nitice of the 18th Congressional District of Unio JOHN C. GRANNIS, Chairman W. P. FOGG, Secretary. purel 23

g bayonets, educated in the common school ag tayoness, enceated in the common semior ourse of the North. Ladies and gentlemen—You cannot be too ceply interested in our public schools; ou cannot be too deeply anxions for their improvement and success; you cannot be too willing to be taxed for the building of more and larger school houses, for it is well known to you that our population has our grown our educational facilities—that Cleve-Farsen Ctocks-A beantiful lot-just in orted from Paris. For sale at Hogan's grown our educational facilities—that Cleve-iand has not to-day school-room for her children. The people of Cleveland must choose between building more school houses and building more prisons—between can ploying more teachers, and employing more policemen. "Uneducated mind is unedu-cated vice." Our city has recently sepret an improved system of police. This is well, but I hope our wise men will not forget that school houses are more important than po-lice stations, and a corps of faithful teach-ers more useful than an army of the best police. AMERICAN WATCHES. These superior ratches are kept constantly on hand at Mosquito not who a fixture for them, at cents per window, at Beckwith & Ster-

VACATION.- The vacation of the City ng, and will continue till about the first of But turning from these general remarks. is turning from these general remargs, let us come to that which is immediate.

The class which has just completed the appointed course of study, in our High Schools is unusually small; and it may be proper that a few words should be said in

proper that a few words should be said in reference to this fact.

There has always been much irregularity in the size of the classes annually entering our High Schools. That which entered the Central High School September I, 1862, humbered 97; that of September I, 1862, 77; that of September I, 1863, 77; that of September I, 1864, 113; that of September I, 1883, 73.

It will be noted that those who have just graduated composed a part of the class of eaded with coal capsized down the bank in assenger depot, the track having given

Ladies', Misees and Children's "Polish 1862, which was much the smallest of the five classes; just mentioned. I am not able to give you in detail the causes which have the smallest of the five classes; just mentioned. I am not able to give you in detail the causes which have depleted the class of 1862, and left us but the small number which has appeared before you to day. But if you will turn to fore you to day. But if you will turn to the Keport of the Principal of the Central High School, just published in connection with the 25th Annual Report of our priving to swindle a couple of suspecting farmers.
